Hi Mike

Many thanks for the reports. They read well and I'm delighted albeit there is always room for improvement and you've highlighted this very well.

The school, yourself, teachers and other staff, must take credit for the results the children achieve. I am extremely grateful for all your hard work which is not always recognised or rewarded. Austerity.....

My children are well mannered, motivated and i am extremely proud of them. You have all shaped them well and set them up with all the necessary skills for hopefully a very successful future in their next school and life in general.

I am delighted and feel privileged that my children have attended Burnopfield school. You should all feel proud of the standards you set and the quality of the education you pass on to children before they move to new pastures.

My children have always enjoyed school and have always spoken well of every teacher who has taught them.

Thankyou for all your hard work and good luck for the future.
